Reactive Pressure Redistribution
Benefits of Repose

**Clinically effective**
Repose has demonstrated low levels of pressure ulcer incidence across multiple studies (5.2%, 4.8%, 5.1%, 5.2%).

**Durable**
If cared for correctly, Repose will provide pressure ulcer prevention for several years.

**Comfortable**
Repose is breathable and has no sharp edges, increasing comfort, compliance and prevents tissue damage.

**Smart Valve Technology**
Easy and reliable, Repose Smart Valve Technology ensures optimal inflation.

**Support**
Dedicated sales and clinical support ensure clinicians and patients are supported every step of the care pathway.

**2 year warranty**
Repose is supplied with a 2 year warranty as standard.

Healthcare professionals involved in the treatment and prevention of pressure ulcers are often faced with time constraints, limited resources and increasing budget pressures all of which can impact on patient outcomes.

Repose® is a range of static air, pressure redistribution and reduction support surfaces, all with high levels of immersion and envelopment. A combination of unique materials and Smart Valve Technology, has been clinically proven to deliver statistically significant patient benefits. Unlike, other static air products and dynamic systems, through Randomized Control Trials, Repose reduces peak and average pressures and consistently delivers low levels of pressure ulcer incidence, in a cost effective, easy to use system.

Repose is indicated for the prevention of pressure ulcers for patients at very high risk and treatment of all categories of pressure ulcers when used as part of a package of care.
The Repose Range

### Surface Solutions

- **Repose® Mattress Overlay**
  - **Order code:** 6011100
  - **Dimensions:** L 74in x W 30in
  - **Weight Limit:** 489lbs*

- **Repose® Mattress Overlay & Cushion Set**
  - **Order code:** 6121101
  - **Dimensions:** Mattress L 74in x W 30in
